## *Private Moments*

Would you like to go back to the time when the **Happy Bride and Groom** would get married, walk out of the church, people would throw rice or bird seeds at them as they drove away in a car or Limo without having to go back into the church to take more wedding photos before going to the reception?

### **We can make it happen again! How?**

The Groom goes into the church alone and then the Bride goes down the aisle to meet him and have a special moment. This can be 5-10 minutes of quality time to enjoy each other fully. Experience the romantic feeling of seeing each other without the pressure of being on display. This has been proven to mean more and have a more lasting memory for both the Bride and Groom. Your Moment together can be a totally private time with or without Photo or Video coverage.

Everyone would need to be dressed 2 ½ hours before the wedding. Photography would start **promptly** after your private time and we can do it all before the wedding! Every one you wish to be photographed with must be in on your plan of a fast getaway. We have had great experiences with Couples that wanted to get married and get all the photos, the personal memories, and the fast get a way. Please try to imagine what the **Private Moments** would mean to **You**. It is your choice and we work hard to make sure you are alone in the church for this time together.

### **These are the People needed at the church 2 ½ hours before the wedding:**

- Wedding Party
- Parents and family of Bride
- Parents and family of the Groom
- Grand Parents
- Godparents
- Any other people you want
